

iSCSI Compatibility Matrix

For Adaptec Unified Serial HBAs & RAID Controllers and Open-E Storage Products

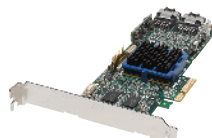

INTERNAL HBA OR RAID CARDS					COMPATIBLE OPEN-E PRODUCTS
Vendor	Interface	Type	Model	Connectors	Product Name
Adaptec	PCI-E	RAID	Adaptec RAID 31205/31605	12/16 port internal Unified Serial RAID	Open-E NAS-R3, Open-E iSCSI-R3, Open-E DSS
Adaptec	PCI-E	RAID	Adaptec RAID 3405/3805	4/8 port internal Unified Serial RAID	Open-E NAS-R3, Open-E iSCSI-R3, Open-E DSS
Adaptec	PCI-E	RAID	Adaptec RAID 3085	8 port external Unified Serial RAID	Open-E NAS-R3, Open-E iSCSI-R3, Open-E DSS
Adaptec	PCI-X	HBA	Adaptec 48300	4 port internal/4 port external Unified Serial RAID	Open-E NAS-R3, Open-E iSCSI-R3, Open-E DSS
Adaptec	PCI-X	HBA	Adaptec 44300	4 port internal Unified Serial RAID	Open-E NAS-R3, Open-E iSCSI-R3, Open-E DSS
Adaptec	PCI-X	RAID	Adaptec RAID 4800	8 port internal/4 port external Unified Serial RAID	Open-E NAS-R3, Open-E iSCSI-R3, Open-E DSS
Adaptec	PCI-E	RAID	Adaptec RAID 4805	8 port internal/4 port external Unified Serial RAID	Open-E NAS-R3, Open-E iSCSI-R3, Open-E DSS

Open-E storage software is a pre-installed operating system on a USB Disk-On-Module (DOM) for building cost effective, high performance, easy to manage storage solutions.

Adaptec RAID 3805
8-port, PCIe, MD2 low-profile, RAID 0, 1, 1E, 5, 5EE, 6, 10, 50, 60

Adaptec RAID 31205
12-port, PCIe, RAID 0, 1, 1E, 5, 5EE, 6, 10, 50, 60

Adaptec RAID 31605
16-port, PCIe, RAID 0, 1, 1E, 5, 5EE, 6, 10, 50, 60

Adaptec RAID 3085
8-port, PCIe, MD2 low-profile, RAID 0, 1, 1E, 5, 5EE, 6, 10, 50, 60

Adaptec RAID 48300
8-port, PCI-X, RAID 0, 1, 10, JBOD

Adaptec RAID 44300
4-port, PCI-X, RAID 0, 1, 10, JBOD

Adaptec RAID 4800
8-port, PCI-X, RAID 0, 1, 5, 10, 50, JBOD

Adaptec RAID 4805
8-port, PCIe, RAID 0, 1, 5, 10, 50, JBOD

Open-E storage software includes the following Adaptec components:

- device drivers to support Adaptec RAID
- arcconf command line interface tools to manage Adaptec RAID
- management services to remotely manage Adaptec RAID via Adaptec Storage Manager (ASM)

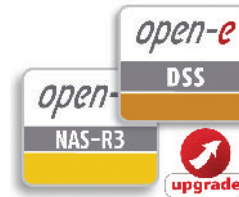

Open-E iSCSI-R3 is the ideal storage-platform for databases and virtualization; it offers the highest data throughput and performance by supporting multiple network connections, Fibre Channel (Initiator) and up to 32 CPUs.

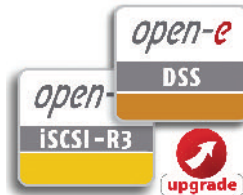

Open-E NAS-R3 is the best choice for your shared data, including iSCSI (Initiator), Fibre Channel (Initiator), Backup to Tape, Backup to Disk (Virtual Tapes) and Data Replication.

Open-E DSS is the all-in-one-storage software, which offers the most flexible environment with support for Shared Storage, iSCSI and Fibre Channel (Initiator and Target) and high-end security-features in one central management interface.

License Key - upgrade NAS-R3 to DSS extends Network-Attached Storage (NAS) functionality of your product with additional Storage Area Network (SAN) functions for databases or virtualization. Only one reboot is required to limit your downtimes, cut off administration overshoot and reduce TCO.

License Key - upgrade iSCSI-R3 to DSS extends Storage Area Network (SAN) functionality of your product with additional Network-Attached Storage (NAS) functions. Only one reboot is required to limit your downtimes, cut off administration overshoot and reduce TCO.

Extend the supported capacity of your Open-E storage server with one mouse click. Additional License Keys for 4, 8, 16, 32 and 64 TByte tune up your solution to the demands of your IT processes.
