Open-E Certified Engineer (OECE) Training

November 14–15, 2013 in Munich, Germany

Open-E is offering partners the opportunity to become an **Open-E Certified Engineer (OECE).**

This training program teaches the skills necessary to implement Open-E DSS V7 for your customer's storage environments with the high quality they expect from Open-E.

- Get trained by experts with deep technical knowledge.

- Get hands-on with the product.

- Become certified for Open-E DSS V7.

Certification as an OECE verifies that an engineer has demonstrated the ability to work smoothly with Open-E's Storage Software, especially **Snapshots, Backups, Replications and Failover.** An OECE can easily implement Open-E DSS V7 to complex IT environments and has comprehensive knowledge and experience of the software.

Location

Sirius Business Park München-Obersendling
Rupert-Mayer-Straße 44
81379 München
Germany

Important Note

Every participant requires a laptop with wireless capability for both training days!
