

## Free Open-E Webinar for Storage Beginners

*Webinar for Open-E DSS V6 beginners: "How to install DSS V6 on USB DOM or on a 2GB Volume from your RAID controller "(FREE)*

**30. August 2010, Munich** - Tomorrow, August 31st 2010 at 2:00 PM Eastern US Time, Open-E offers a special webinar for Open-E DSS V6 freshman. Todd Maxwell will explain and show step-by-step how to install DSS V6 software on bootable media, including a RAID LUN, USB stick, or DOM. To register last minute for this free webinar please send a mail to [webinar-usa@open-e.com](mailto:webinar-usa@open-e.com) with the subject "WEBINAR RSVP". Open-E will provide you a link for the session via email.

Todd Maxwell, the Director of Technical Sales of Open-E, will, next to the illustration how to install DSS V6 software, offer many useful tips and suggestions. The participants of the online-seminar will learn how to install the DSS V6 on a USB Flash Stick and how necessary RAID configuration is for boot media requirements and considerations. Also the installation of the DSS V6 on a 2GB RAID Volume will be shown and the using of the Software installer and other points of interest.

Open-E offers every Tuesday webinars, which are out of charge. Open-E experts show in live demos how to operate right with storages in conjunction with the Open-E system Data Storage Software V6 (DSS V6). All the participants who want to join the webinars need an internet connection and a computer with speakers and/or headphones. For further information, you can find the complete Open-E webinar schedule here: [www.open-e.com/news/webinars/](http://www.open-e.com/news/webinars/) . Interested people, who did not have the possibility to participate in a webinar, can find recorded online-seminars on [www.open-e.com/library/webcasts-and-demos/](http://www.open-e.com/library/webcasts-and-demos/) .

### Todd Maxwell (Director of Technical Sales)

In early 2006, Todd Maxwell joined the Open-E team to grow and support new and existing markets for North America and Canada. Todd Maxwell has more than 17 years diverse experience in the storage market and is a certified CNE and MCSE and holds certifications in NetFrame Super Servers, Compaq, HP and wireless technologies. Todd's professional career has led him to technology leadership with GE Capital ITS, Hypercom Corp, Dot Hill and SpeedNET. Todd Maxwell received his BA from DePaul University in Chicago.

### About Open-E

Open-E, Inc. is a pioneering leader and developer of IP-based storage management software with headquarters in the United States and Europe. Our Storage Management Software is aimed at the SMB and SME markets and enjoys a reputation for best-in-class performance, flexibility, reliability, scalability and return-on-investment. The new Open-E DSS V6 product line provides a storage management solution that can be used by any company.

Open-E delivers its software through a world-wide network of experienced system integrators and reseller partners. With an extensive network of over 600 registered OEMs, distributors and reseller partners, including over 200 Open-E certified partners, our customers have the flexibility to work with the hardware solution provider of their choice, allowing Open-E to focus on its core competence of storage software development.

With over 15,000 installations in over 100 countries, Open-E data storage solutions are used also by Fortune 500 customers world-wide.
