# Open-E JovianDSS fully certified by VMware for iSCSI, FC, and NFS (for NAS) protocols

Leading data storage software provider is fully certified by VMware for communication protocols used in virtualization-oriented data storage setups.

**Atlanta, Georgia; July 21, 2021:** – Open-E, a leading provider of software-defined data storage solutions, passed the certification process for NFS, and is now fully certified by VMware for the Open-E JovianDSS's iSCSI, FC and NFS (for NAS) protocols drivers. All of them are now listed on the VMware Compatibility Guide list.

Open-E JovianDSS is a VMware-ready storage solution that utilizes iSCSI, FC, and NFS (for NAS) protocols for hosting hundreds of virtual machines on optimal data storage space. The result is a cost-effective, flexible, and scalable data storage solution for virtualization that offers high availability, high performance, and high data efficiency.

"The majority of Open-E JovianDSS implementations include virtualization, and VMware is one of the most popular choices of our customers. That is why we strive to constantly certify our solution and maintain its compatibility with this hypervisor. We work closely with VMware to make the data storage appliances of our customers ready to support as many virtual machines as their business might require with a reliable, secured, and flexible environment." – says Krzysztof Franek, CEO at Open-E.

Open-E JovianDSS is a ZFS- and Linux-based Data Storage Software designed for software-defined storage environments. The software addresses the needs of enterprises, SMB users, Data Centers, and cloud providers seeking a unified NAS and SAN solution with On- and Off-site Data Protection, consistent Snapshots, Thin Provisioning, Compression, Deduplication, and more.
Full Open-E JovianDSS's certification details are available on the VMware Compatibility Guide page.

**About Open-E**

Open-E, founded in 1998, is a well-established developer of IP-based data storage software. Its flagship product Open-E JovianDSS is a robust, award-winning storage application that offers excellent compatibility with industry standards, and is the easiest to use and manage. Additionally, it is one of the most stable solutions on the market and an undisputed price performance leader.

Thanks to its reputation, experience, and business reliability, Open-E has become the technology partner of choice for industry-leading IT companies. Open-E accounts for over 37,000 installations worldwide and has received numerous industry awards and recognition.
